of data through the twiindata platform every single day

companies using our network every

locations using our data management services every single day in the UK

We deliver the technology, so that you can focus on growing your business

We design and build our products at Geek HQ in Hampshire whilst our primary sales office is in central London. We have clients from Aberdeen to Plymouth, so wherever you're based, we have a solution for you. Our clients (many of whom have been with us for over ten years) consider us as part of their team and know our team members by name. Together we provide connectivity and seamless support to them.
